

The Management of TAG AUTOMOTIVE S.L. considers that the preservation of the environment is a fundamental principle of the company.

For this reason, TAG AUTOMOTIVE S.L. has decided to develop all its industrial activities in an environmentally friendly manner, providing the resources to continuously implement, maintain and improve the Environmental Management System, committing to compliance with legislative requirements as well as other applicable regulations, while keeping accurate working procedures up to date to ensure the rational use of resources and the minimization of waste, contributing to the sustainable development required by society.

Consequently, TAG AUTOMOTIVE S.L. establishes this environmental policy based on the following commitments:

- To make sustainable use of resources and to reduce as much as possible the production of waste and its hazard, ensuring its correct management, as well as avoiding polluting emissions and discharges through the establishment of environmental objectives and the implementation of continuous improvement programs, through:

Control of energy consumption, energy efficiency.  
Reduction in origin and maximum waste valorization.  
Responsible management of chemicals.  
Prevention of soil and groundwater contamination.  
Control and quality.  
Preventing accidental contamination.  
Reducing acoustic discomfort

- Apply the basic principle of pollution prevention from planning and evaluation decisions on new projects and / or their modifications.
- Collaborate when required by different administrations and public or private entities in the search for solutions to the environmental problems raised in the exercise of our activity.
- Facilitate internal and external environmental communication with transparency criteria and report on the objectives achieved and ongoing work on environmental control.
- Promote awareness and training of all personnel, as well as collaborating companies working on our behalf (suppliers and subcontractors). In understanding and accepting this Policy, as well as the rest of the Environmental Management System.

For all the above, TAG AUTOMOTIVE S.L. undertakes not to develop those industrial projects that are not environmentally friendly and in accordance with its environmental policy.

This Policy is available to interested parties, and is regularly revised and updated for continued adequacy.
